

EXECUTIVE DRIVE

Experience the thrill of adrenalin filled multi-player Virtual Reality Events

TOP COMPANIES SEEK INNOVATIVE AND COST EFFECTIVE ACTIVITY EVENTS TO MOTIVATE AND REWARD STAFF.

In today's tough economic climate, high value is attributed to employees as intellectual capital that must be developed and retained. Exciting and cost effective Activity Events help reinforce their marketing communications and develop close client relationships. Training managers, Conference and meeting organisers are looking for suitable Conference Entertainment services for light hearted break-outs to both stimulate and motivate delegates and attendees.

EXECUTIVE DRIVE

RACING SIMS

Enter the high octane world of motor racing (GT/F1/Rally), high tech, high intensity racing. Feel the wheel to wheel collisions through Force Feedback wheels, pedals and vibrating headsets and voice intercoms. Enjoy the ultimate driving experience regardless of your experience level.

SPECTACULAR CRASHES AND VEHICLE DEFORMATION.

HEAR THE ENGINES ROAR WITH AUTHENTIC RECORDINGS.

No serious driving fan will want to miss the challenge of racing these cars. You can really **SEE** and **FEEL** the difference between cars. Participants and teams have the option to tune and repair cars in qualifying and during races. The latest software calculates real-time suspension geometry whilst the car is in motion with roll centres, camber gains, shock absorbers, bump-steer and caster all processed in real time to ensure the car behaves realistically creating an intense driving experience which is as close to the real thing as possible. Tyres and brakes even wear and their performance is also subject to heat and weather conditions.

FLIGHT SIMS

Fly as a pilot or as a gunner in a military flight simulation with exceptionally high quality aircraft and ground unit graphics.

REALISTIC DYNAMIC DAMAGE MODELLING.

FLYABLE AIRCRAFT INCLUDE FIGHTERS, BOMBERS AND GROUND ATTACK AIRCRAFT FROM MANY COUNTRIES.

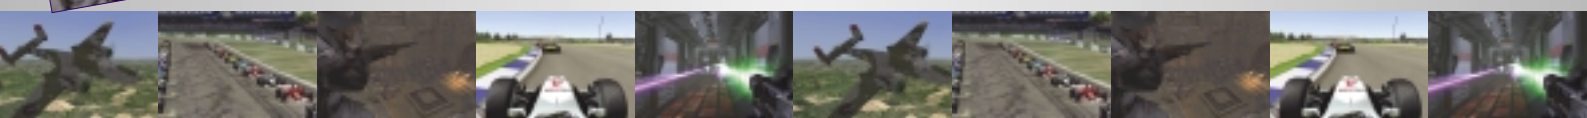

Engage in air-to-air and air-to-ground battles. Destroy any ground object, such as buildings, bridges, airfields, etc. Engage in dog-fighting or co-operative missions, with up to 32 players in massive air and ground battles between 16 players in co-operative missions whilst using national markings for each team. Head set voice communications between players, realistic 3D world environment, including terrain, sky, unique clouds and weather conditions, smoke, explosions, fire and other special effects and immersive radio chatter.

**LATEST
GAMES**

COMBAT SIMS

Join a raging WWII battlefield as part of a team-based first person shooter game. Players pick up the sidearm of their choice and get behind the wheel of a variety of vehicles, ships, aircraft and even submarines to go to war on land, sea, and air during some of the most famous and pivotal battles of the Second World War. The player is able to fight in huge areas and in order that no endless marches by foot destroy the fun, they can drive 35 historically accurate WWII vehicles. Charge across the desert in a powerful tank or transport troops into battle in an APC. Pilot a heavy bomber over the drop zone or engage in a nail-biting dogfight. Fire the guns of a mighty battleship or prowl the sea in a submarine. There are five countries: Russia, Japan, America, Britain and Germany. Playing as one of these countries they can select five specialised character classes: assault, medic, scout, anti-tank, or engineer each with their own unique strengths and weaknesses. Teams will engage in battle across the four main WWII theatres of war: North Africa, South Asia Pacific, Western Europe and Eastern Europe.

WHAT MAKES US DIFFERENT

We deliver Participatory Activity Events focussed on making multi-player virtual reality challenges the exceptional simulation experience they should be.

We have licensed, state-of-the-art multi-player software with the world's best physics and combined it with the latest in three-dimensional graphics, head-set tracking cameras, 3D shutter glasses, voice intercoms and force feedback input controllers ensuring players become fully immersed believing they're experiencing the real thing.

This new technology is the ultimate view control system within 360 degree virtual cockpits providing enhanced perception of real distance and vastly improved situational awareness. The result is an ice-breaking, high quality, compulsive entertainment providing an excellent team-building medium or all-encompassing gaming, even for those who profess to hate computers, cars and cockpits.

By providing a unique, high quality entertainment and hospitality service that specialises in both Virtual Reality Participatory Activities for indoor Hospitality Events and VR Internet Gaming Cafes for Conference & Seminar entertainment. Executive Drive seeks to fulfil the following benefits that are important to our customers.

FUN, STIMULATING, MOTIVATING AND INTERACTIVE EVENTS - ACTIVITIES GEARED TO PROVIDE HIGHLY IMMERSIVE AND ADRENALIN FILLED ENTERTAINMENT.

CUSTOMER SERVICE - WE ARE HERE TO ENSURE YOUR NEEDS ARE BEING MET, REGARDLESS HOW SMALL OR INCONSEQUENTIAL IT MAY SEEM.

FLEXIBLE PRICING - OUR PRICING IS FLEXIBLE TO ACCOMMODATE VARYING BUDGETS AND VARIOUS PARTICIPATING AUDIENCES.
